Dear Superintendent,

I was meant to be a teacher. I am inquiring in regards to your upcoming anticipated openings for the following school year. I want to make a difference in your school district because teaching is my passion. I was a reading specialist during the pandemic and then a middle school teacher the year after. Just this year I ventured into an elementary teacher role with great success. I understand the struggles our students face and I can help them face their challenges. Our students need a teacher as compassionate, motivated, and understanding as I am.

I specialize in Elementary Education with emphasis in literacy. I possess my professional certification in Early Childhood (B-2nd), Childhood Elementary Education (1st-6th Grade), as well as professional certification in Literacy (Birth-12th Grade). My teaching experiences, internships, professional activity, Covid-19 response protocols, professional development, and academic experiences have afforded me with diverse opportunities across settings.

My experiences include teaching students across grade levels. I have had the opportunity to teach, tutor, provide enrichment, run programming, and develop curriculum spanning across every grade level my certifications encompass. I am passionate about all facets of student development where socialization and interaction promote opportunities for light bulb moments for all students. I've engaged in other learning opportunities where students are empowered to be creative higher level thinkers. These experiences have afforded me with diverse opportunities to differentiate instruction and most recently implementing the Next Generation Learning Standards through utilization of the Common Core Curriculum to ensure students are college and career ready.

I am self-motivated, enthusiastic and passionate about teaching. I look forward to further facilitating the educational enrichment of the students in your district. I am a leader who looks forward to the opportunity to work with others. My experiences highlighted in my resume reflect upon my ability to work independently and as a team player. I am dedicated and passionate in my commitment to provide students with an environment where they can thrive as 21st Century learners.

I look forward to hearing from you soon.

Sincerely,

Christine A. Miller
